**2025 ANNUAL REPORT**

## ***A Message from the Chair***

Welcome to our annual meeting.

The writing of this annual message from the Chair is always an interesting process for me. With how fast the changing environment is in our industry, it is hard to remember what happened a year ago.

The solid waste side of our regions' attention was focused on the regulation and design of a new cell for their landfill, oh, and the cost too!

On the recycling side, I could go on and on and on. However, I will not restate the obvious other than to say we worked diligently to refine the phase 2 curbside regulation to acceptable terms and submitted the phase 3 depot reports.

The implementation of the phase 2 portion of the new EPR recycling program will be the focus of the first half of 2026, then we will switch over to implementation of phase 3.

I wish to thank you all for your input and participation as we have been dealing with these processes.

Keith Matheson

ARWMAS advocates for regionalization by providing a forum to support provincial waste management authorities in developing sustainable programs that reduce dependency on landfills through effective waste minimization and diversion practices, consultation with government and collaboration with ARWMAS members.

ARWMAS and its members will create an inclusive provincial network dedicated to excellence, efficiency and innovation in waste minimization practices.

### **Who is ARWMAS?**

The Association of Regional Waste Management Authorities of Saskatchewan Inc. (ARWMAS), is a not-for-profit Association incorporated within the Province of Saskatchewan. ARWMAS was duly constituted on October 28, 2004, and exists by virtue of the need of the Regional Waste Management Authorities for an Association that represents their interests and concerns. The Association of Regional Waste Management Authorities of Saskatchewan Inc. (ARWMAS) is a not-for-profit association incorporated within the Province of Saskatchewan. ARWMAS' Regular membership includes rural and urban municipalities, First Nations and parks that have created regional waste authorities to provide their constituents with waste and recycling services. Other interested parties may join as Associate members.

## **Executive Director's Update**

In 2025, ARWMAS welcomed two new Associate Members, Loraas Disposal (Regina) and CRM Processing of Canada ULC.

In October, ARWMAS convened its first Strategic Planning Session as we passed our first 20-year milestone. There were a number of key performance indicators identified that are providing guidance for the Board and Staff over the next three to five years.

ARWMAS objectives for the year 2025 included:

- ✓ Promote activities that reduce the cost of waste management within the province (rural and urban).
- ✓ Encourage rural and urban municipalities to cooperate on central landfills, which would result in a reduction in the number of landfills in the province.
- ✓ To participate in opportunities to promote the provincial stewardship agencies' program objectives, notably establishment of collection sites and public education.
- ✓ To share information and best practices to assist new regions with program start-up and expansion, and to achieve efficiencies in existing regions.
- ✓ To approach regional waste management authorities/groups who are not members of ARWMAS to encourage them to become members.
- ✓ To promote economic opportunities for development of in-province processes/cottage industries for recyclable materials.

- ✓ To work with Saskatchewan Environment to ensure that **all** municipal landfills operate to current regulatory requirements.
- ✓ To work with Saskatchewan Environment to ensure landfill development on existing and new sites follow monitoring and regulatory requirements.
- ✓ To encourage the government to provide funding for landfill development, expansion and/or decommissioning.
- ✓ To work with Saskatchewan Environment on the implementation of its provincial Solid Waste Management Strategy and Regional Landfill Strategy.
- ✓ To advise Saskatchewan Environment on regulatory revision, policy development and new program implementation.
- ✓ ARWMAS continues to look for opportunities to develop and enhance relationships with SUMA (Saskatchewan Urban Municipalities Association) and SARM (Saskatchewan Association of Rural Municipalities).
- ✓ To work with government agencies at all levels and FCM (Federation of Canadian Municipalities), to identify grant and funding opportunities for regional waste authorities. Support of SUMA and SARM will be sought.
- ✓ To collaborate with SUMA and SARM to encourage the government to make municipal participation in the Household Paper & Packaging Program mandatory.
- ✓ To implement the communications plan to promote the organization to rural and small municipalities.
- ✓ To facilitate a Board Strategic Planning Session to establish direction for the next 3-5 years.
